Baptism by fire! Myself and a partner had to bring a 100 page publication to life, with almost no prior experience. We embraced the uncertainty and excelled. Datum will always be a point of pride.

OPTIMISTIC ALLEYWAY, SOCIAL DESIGN PROJECT

TEAM LEADER

FALL 2015 - EARLY 2016

No more safety net! Optimistic Alleyway was a project that had to interact with the real world. This project was transformational as I had to use my education to get people's attention. I learned more here about managing a project, recovering and responding to crisis, than any other event in my career.
